dLAN® 500
AVplus

+ ⊙
Integrated socket

500
Mbit/s

The perfect connection for your home network.

Make use of the home network of the future today, and connect computers and consumer electronics via the household power line – with the dLAN® 500 AVplus! All devices can be connected to each other and the Internet quickly, easily and securely. dLAN® reaches speeds of up to 500 Mbit/s and features even higher performance than network cables or WLAN – and that without WLAN picture stutter or the need to route cables. And with its integrated electrical socket, no power outlet is lost.

**The integrated socket ensures that no electrical outlet is lost**

Starter Kit

dLAN® 500 AVplus
Network Kit

Highlights:

- High-speed home network via the household power line with transmission rates of up to 500 Mbps
- Thanks to the integrated electrical socket, no existing power outlet is lost! You can connect terminal devices and even power strips directly to the adapter
- Integrated mains filter significantly improves data transmission in the home network
- Perfect for all types of data transmission in the home network, 3-D entertainment throughout the home, multimedia streaming and multi-room entertainment – multiple HDTV streams can be transmitted simultaneously
- Desktop computers, laptops (PC/Mac), Internet television sets, IPTV set-top boxes (e.g. Telekom Entertain), game consoles, network hard drives etc. can be connected to each other and to the Internet in no time
- No configuration is necessary – plug the adapter into the power outlet, connect it to your computer via the network cable and you are ready to go!
- Automatic data prioritisation (Quality of Service) ensures interference-free video transmission and Internet phone calls, even if more than one person is surfing the Internet at the same time
- With the automatic phase shift feature, it works in every room desired, in every apartment, in every building – whether new or old, up to a cable length of 300 metres
- Security at the touch of a button – secure AES encryption is activated very easily at the touch of a button on the adapter
- Power consumption of just 0.5 watts in standby mode: the adapter reduces its energy consumption automatically by over 90 percent
- Easy setup possible with no need for a computer. Easy, customised monitoring and configuration of the dLAN® home network is also provided by the intuitive dLAN® Cockpit software
- Compatibility with all 200 and 500 AV adapters (HomePlug AV)
- 3-year warranty, as unit is designed, tested and certified in Germany

Software supports:
Microsoft Windows® XP 32 bit,
Vista 32/64 bit, 7 32/64 bit,
Mac OS® X, Linux®

Compatible with:
dLAN® 500 AVmini
dLAN® 500 AVplus
dLAN® 500 AVtriple+
dLAN® 200 AVsmart+
dLAN® 200 AVplus
dLAN® 200 AVeasy/AVmini
dLAN® 200 AV Wireless G/N
dLAN® 200 AV USB extender
