

dLAN® WiFi Outdoor

High-speed Wi-Fi

Waterproof

devolo

Whole Home Wi-Fi – even in your garden!

Summer is around the corner: time for sunny, relaxing hours outdoors. Your tablet and smartphone will always have a strong Wi-Fi signal, for smooth music and video streaming. That's the theory, anyway. Often, however, this is not the case on your balcony or in your garden. Your Wi-Fi slows right down and your shed on the other side of the garden is completely offline. It doesn't have to be like that!

Thanks to the dLAN® WiFi Outdoor, you can have a great garden party! Combined with an additional devolo dLAN® adapter, it uses your mains supply as a data cable, turning every socket into a Wi-Fi hotspot. Tablets, smartphones and notebooks will benefit from fast Wi-Fi. And thanks to mesh functionality, you will have Wi-Fi wherever you are. Even the long distance to the shed is easily covered with range+ Technology. And if a summer's day happens to be rained off, it's not a problem either: The dLAN® WiFi Outdoor is waterproof and can withstand any summer shower.

dLAN® WiFi Outdoor
08242 (EU)

dLAN® WiFi Outdoor

Highlights:

- **Wi-Fi even in your garden.** Have a relaxing time outdoors with smooth music/video streaming and surfing the net in your garden or on your balcony.
- **A strong signal anywhere.** Combined with an additional devolo dLAN® adapter, the WiFi Outdoor turns your mains supply into a strong Powerline connection.
- **Wi-Fi wherever you are.** If you move around your house a lot, the mesh functionality will ensure that your devices always use the best Wi-Fi connection.
- **Resistant.** Thanks to its weather-resistant casing, the adapter can withstand any summer shower.
- **Effective.** A huge benefit: devolo range+ Technology delivers a strong connection, even over long distances.
- **Simple and compatible.** Plug & Play: gives you the perfect network instantly and is compatible with all routers and dLAN® Powerline adapters.
- **Successful.** Why is devolo your best choice? Innovation developed in Germany, more than 300 awards and seals of quality, a full three-year guarantee and most importantly: millions of satisfied customers.

Effective. devolo range+ Technology delivers a strong connection, even over long distances.
